

ESTATE UPDATE

We are now in the midst of summer and what with all the rain we've had along with some lovely sunny spells, the greenery on the estate is growing rapidly! Our weekly gardener is working hard trimming back the bushes, cutting the grass and keeping the weeds at bay! A couple of weeks ago, he also worked on improving the front garden of the Harris Way flats. Membrane and bark have been laid and we now have a lovely collection of plants including Lavender, Salvia, Scabios and Euonymus.
